

# *Downriver Health News*

---

*“To Your Best Health”*

There's a new publication in town!

Beginning in October 2008 The **Downriver Health News** will publish 5000 papers on a quarterly basis. Specifically this paper was created by Dr. S. Danish, Internal Medicine for the sole purpose of bringing health information, news and awareness to Downriver citizens.

It will be mailed initially to residents 60 and over in Trenton, Grosse Ile, Southgate & Wyandotte and plans to expand if it should grow as expected. Also it will be made available FREE in various restaurants, clinics, offices and other medical related buildings in the 17 city Downriver area.

We are looking for your health stories! Be part of the inaugural issue in October by emailing your Press release to: [dgretzner@hotmail.com](mailto:dgretzner@hotmail.com) by September 22, 2008.

Specifically what makes you unique in the industry will be of special interest, new industry trends and health facility openings will also be considered. Pictures are also appreciated and can be emailed as a jpeg. There is of course no charge for news releases, our editor just reserves the right what will be place and when.

We will also have some space for advertising on the back of our four page partial color publication. Ads will start at \$25 for business card size.

Please contact Daniel Gretzner at 734-818-6577

*We look forward to sharing some great Health News in the Downriver area!*
